#### How Did I Score Compared to Others?

Percentiles compare your scores to those of other students who took the test. Say, for example, your Biology Test score is 500. If the national percentile for 500 is 47, this means you did better than 47 percent of all high school students who took this test (the most recent scores are used).

Because different groups of students take different Subject Tests, you can't compare a Biology Test percentile with a Literature Test percentile, for example.

#### Will My Scores Change and Why?

Your test score represents a snapshot in time. If you took the test multiple times that number would likely change — increase or decrease — on each test. This is why we sometimes say a score range better represents your true ability; it looks at multiple snapshots of your score instead of just one.

Usually your scores fall in a range of roughly 30–40 points above or below your true ability. Because score ranges are the best representation of your abilities, we say there must be a difference of at least 60 points between your score and another student's score to say that one of you performed better than the other.

#### Will My Score Change If I Take the Test Again?

The SAT Subject Tests measure your knowledge of a particular subject. If you continue to study the subject and take the test again, your score should reflect your increased knowledge. Also, consider other SAT Subject Tests you might take to showcase your achievement in any of the five subject areas — English, history, mathematics, sciences, and languages. Register online at [collegeboard.org/mysat](https://collegeboard.org/mysat).

## SAT Summary of Scores

Date		June 04, 2016				
Grade		12				
SAT						
Total		1530				
Evidence-Based Reading and Writing		750				
Math		780				
Essay	Reading	8				
	Analysis	8				
	Writing	8				
Old SAT						
Critical Reading						
Mathematics						
Writing						

## SAT Subject Test Scores

Date		Oct. 01, 2016				
Grade		12				
Subject Test						
		Math Level 1				
Test Score		800				
Language Subscores	Reading					
	Listening					
	Usage					
Subject Test						
		Math Level 2				
Test Score		800				
Subject Test						
		Physics				
Test Score		800				

\*Scores from the SAT Subject Test in Mathematics are not comparable to Math section, test, and related subscores on the SAT.

\*Not all SAT Subject Tests have subscores.

### How Should I Send My Scores to Colleges?

This student score report is for your use only. Most colleges require you to have the College Board send them official score reports — they don't accept copies of student score reports, online score reports, or score report labels on transcripts.

With Score Choice™, you decide which scores you send to colleges. Choose by test date for the SAT and individual test for SAT Subject Tests — in agreement with an institution's stated score-use practice. Visit [studentscores.collegeboard.org](http://studentscores.collegeboard.org) for detailed analysis of your scores and more information on sending scores to colleges.

### College Plan

There are a lot of great possibilities to explore in choosing a college. Get a step-by-step road map and advice on what to do when. Access your online score report for details.

### SAT Practice

Keep improving your college readiness skills with resources available at Khan Academy®. When you take the new SAT (beginning March 2016), you can further connect to FREE, world-class personalized practice recommendations online on [khanacademy.org/sat](http://khanacademy.org/sat).
